THREE NATIONS AGAINST CZAR

Japan, Korea And China Said to Have Combined

ARMIES FACE TO FACE

Eighty Thousand Men Expected to Soon Meet and the Result No One Can Foretell at the Present Writing

OTHER NEWS FROM FAR EAST.

ST. PETERSBURG, March 21,—The Novoe Vrena publishes prominently a Paris dispatch declaring it is believed there that a triple alliance between Japan. China and Korea has been formed, which was the real object of the Marquis Ito's visit to Seoul.

Beyond the movement of troops to the Far East, which is progressing satisfactorily and in accordance with Russian plans, the government's advices indicate little change in the situation.

No official telegrams announcing collisions with the enemy has been received up to noon. The government had no information to substantiate the reported capture of 1,800 Japanese near the Yalu river and it is assumed that it would immediately have been reported if true.

DENIAL FROM THE FOREIGN OFFICE.

St. Petersburg, March 21.—7.35 p. m.—The Foreign Office gives an absolute denial to the statement telegraphed from here that Korea is regarded as belligerent. Russia, as previously explained, holds all the acts of Korea since the declaration of her neutrality as being under Japanese duress, and unless the Korean government formally notifies the powers that he has joined with Japan and takes up arms, Russia will consider her neutral. But any Korean troops which actually impede Russian movements or join the enemy will be considered individual belligerents without reference to their neutrality.

ANOTHER RUMOR IS DENIED.

The statement that the Russian Minister at Pekin has demanded the withdrawal of all Chinese troops north of the great wall is also incorrect. As cabled, Russia has made representations about the number of Chinese troops in the neutral zone, west of the Liao river, not desiring a force there which would constitute a threat, and it is understood that China has given measurably satisfactory assurances on the subject.

LONDON, March 21.—A dispatch to the Standard from St. Petersburg says that 40,000 Russians are drawn up on the Chen-chugang river, north of Anju, where a similar number of Japanese are believed to be. The latter's movements are closely watched by large bodies of Cossacks. The first land action is expected to take place in that neighborhood.

The St Petersburg correspondent of the Telegraph says that trust-worthy intelligence has been received that the reports of Japanese landing on the east coast of Korea are false. It is not believed that General Uodzu, to whose 65,000 men 45,000 probably will be added by the middle of March, has designs on Vladivostok.

General Linevitch's recent reinforcements are kept secret. Three weeks ago he had 32,400 men and fifty-four field guns, but it is expected that he will have 140,000 men by the middle of May, when the Japanese forces will be ready to advance against the Russian flank.

The military authorities are started by the reported Japanese attempt to land at Helena Bay, which would put them within six miles of the railway. Bad weather is said to have stopped their landing. Energetic measures have now been taken to prevent their descent upon Helena Bay. Troops are concentrated at Fuchow, twenty-two miles south of Helena Bay.

Dr. George B. Klump to Move to Williamsport.

The many friends in Bellefonte of Dr. and Mrs. Geo. B. Klump will learn with genuine regret that Doctor Klump has decided to move his family to Williamsport after the 1st of April where they will make their future home. While the Doctor has met with good success in his practice here yet Williamsport is a larger city and a much better field of usefulness.

He will be succeeded here by Dr. W. W. Feidt, of Williamstown, Pa., who is said to be a highly successful practioneer. Dr. Feidt will arrive here April 1st.

ACADEMY DEFEATS B. A. C.

A Hard Fought Game on Both Sides. An Enthusiastic Crowd Present.

With many friends to cheer them on to victory the Bellefonte Academy and the Bellefonte Athletic Club basket ball teams played the fifth game of the series of seven. The game from beginning to the end was fast and hard fought, a great deal of the time the ball was kept over in the B. A. C. territory but for some reason they could not hit the basket and the result was the Academy would go back home again with the ball, and at the ending of the first half the score stood 5-1 in favor of the school boys on the "Hill."

The second half began with just as much earnest zeal and effort as the first, but the Academy put two fresh men in the field who played like young tigers. During this half Sharpe and Newbaker were disabled and for a short time the game was delayed. Sharpe was unable to enter again. Burns of the Academy team did some most excellent playing and really carried off the laurels of the evening. Sharpe and Leathers of the same team also won a great deal of applause for their fine playing. Keichline and Newbaker played a hard game on the B. A. C. team.

The silver cup which will be given to the team that wins, is valued at fifteen dollars, and can be seen at Blair's Jewelry store.

Death of Mrs. Roland G. Curtin.

Word reached here Saturday of the death of Julia T. wife of Dr. Roland G. Curtin, which sad event occurred at their home in Philadelphia Friday evening March 18. She was stricken with paralysis Sunday March 13th, while on her way home from church. Her maiden name was Taylor and she was a prominent society woman in Philadelphia. She was 59 years of age. The remains arrived in Bellefonte Tuesday morning at 9:28. The bereaved family and friends accompanied the remains to Bellefonte. They occupied the Pullman car "Sunbeam." The interment was made in the family plot in the Union cemetery directly from the train.

The casket bearers were Messrs. W. W. Montgomery, Frank Montgomery, Dr. George F. Harris, William P. Humes, Harry Curtin, James Harris, John P. Harris and G. Murray Andrews.

The casket was fairly covered by the many beautiful floral tributes received. The services at the grave were conducted by Rev. Geo. Isreal Brown, of St. John's Episcopal church, of this place, assisted by Rev. W. P. Kemper, rector of St. James church of Philadelphia.

Burkholdr-Condo.

A pretty wedding took place at the home of Mr. and Mrs. Lot Condo, at Menno, Wednesday noon, when their daughter, Miss Sadie Condo, and Morris A. Burkholder, of Altoona, were married. The groom is a son of Mrs. Mary Burkholder, of Centre Hill, but for several years has lived in Altoona where he is employed in the Pennsylvania car shops. The young couple went on a wedding journey to Philadelphia and New Jersey. Both are estimable young people, and have the best wishes of this paper.

The marriage ceremony was performed by Rev. J. M. Rearick, of Centre Hall.

Backed the Game Law in Vain.

The celebrated Hood rabbit case was finally disposed of in the courts Wednesday when the defendant, Farmer Hood, of Snyder county, was found guilty and paid costs and a fine aggregating $150. Mr. Hood brought dead rabbits to the Shamokin market and sold them. This was in direct violation to the law and a game warden caused his arrest.

American Missionary Killed.

Urumia, Persia, (By Cable)—News has reached here that Dr. Laborr (Labaree?) and American missionary, has been killed on the road to Khoi.

Rev. Dr. Benjamin Labaree, who is probably referred to in the above dispatch, is one of the best-known Presbyterian missionaries in the Asiatic field, having been stationed in Persia since 1860.

SOME SURPRISES THIS WEEK

Miss Bessie Craighead Takes Lead in Teachers Contest.

MISS LEVY IS SECOND

James A. Fiedler of Romola; Miss Mary E. Penny of Snow Shoe; John N. Moyer of Rebersburg; Make Big Gain's This Week.

ARE YOU VOTING FOR YOUR FAVORITE

Some surprises were sprung in the Teacher's World's Fair contest this week and the interest in the result is intensified. The out-of-town districts are beginning to be heard from and there is likely to be some big changes next week.

James A. Fiedler, of Romola, the former newspaper man, now a teacher in Curtin township, has made a big gain. His friends are just finding out about the contest.

Snow Shoe comes to the front with three candidates but Miss Mary Penny seems to be the strongest so far and she took a big jump. She is a new candidate and these are her first votes. Not a bad showing is it.

John N. Moyer, of Rebersburg; Mabel Brungart, of Wolf's Store, are Penns Valley's candidates and both were heard from this week to advantage.

Misses Rebecca Heckman, Alice Neff, Helen Jodon, Alice Dorworth, Gertrude Taylor, Fannie Elmore, Jennie Longacre and Jennie Morrison were remembered very substantialy by their friends.

Miss Bessie Craighead is in the lead, but she is only ten ahead of Miss Levy. The former received over 500 votes this week.

Are you working for your friends? If not, you should be.

The vote up to Thursday, March 24th, is as follows :

RULES GOVERNING CONTEST.

The Bellefonte REPUBLICAN and the DAILY NEWS, both under one management, have decided to make the most generous offer ever made by a newspaper in the history of Centre county. The offer is simply this : We will send to the great World's Fair at St Louis next summer the most popular school teacher, lady or gentleman, in Centre county, paying all expenses such as car fare, hotel bills, and admission to the fair grounds.

Who is the most popular school teacher and therefore the lucky one take in the World's Fair ? This will be decided by the readers of the DAILY NEWS and Bellefone REPUBLICAN. A coupon will be published in each issue of both papers from now on until June 11, 1904, and you simply have to write your choice on the ballot and send it to this office. The fortunate one receiving the most votes in the given time takes the trip.

The following are the rules and regulations :

FIRST.—The contest is open to any teacher, lady or gentleman, providing he or she is a teacher of a Centre county school.

SECOND.—Three judges agreeable to the candidates will be selected to officially count the final vote and announce the winner.

THIRD.—Matters properly concerning the tour will be settled by the wishes of the majority. The winner shall have

the right to name a proxy if unable to attend theirself.

FOURTH.—Only one name can be written on a coupon. The vote of one candidate cannot be transferred to another. Ballots will be placed in the box only by the publisher of the REPUBLICAN and NEWS or by his bookkeeper.

FIFTH.—Voting will commence at once and will close Saturday, June 11, 1904, at 7 o'clock in the evening. Coupons over ten days old cannot be voted Votes will be counted each week and the totals announced in the Thursday issues of the REPUBICAN and NEWS. No coupons will be sold, but to each new or old subscriber paying $1 on either paper will be given a coupon which will entitle the holder to fifty votes if the dollar is paid before the 15th day of April, forty votes if paid between April 15, and May 15, and thirty votes if paid between May 15 and June 11 at 7 o'clock in the evening. For every dollar paid on subscription the subscriber will be entitled to fifty, forty or thirty votes, according to when the dollar is paid.

The object of this distribution being to place a premium on early payments of subscription, hurry up and pay your subscription and vote for the teacher of your choice.

WATER WORKS REPAIRS

J. H. Lingle Awarded An Important Contract at Old Water Works—V. J. Bauer Appointed Water Assessor.

BILLS WERE NOT SO BIG THIS TIME.

The second meeting of our new boro. council was held Monday evening at 7:30 in the usual place. President Jenkins occupied the chair with the following members present: Kirk, Fenlon, Seibert, Wise, Keichline, Derstine and Keller.

The minutes of the previous meeting were read by the clerk, Wm. T. Kelly and they being approved council proceeded to discuss the business before them.

The boro officials present were Solicitor D. F. Fortney, Water Superintendent Samuel H. Rine, Street Commissioner Thos. Shaughensey and Treasurer Geo. R. Meek.

J. Irvin Kline, of East Lamb street, asked permission to sprinkle High street, from P. R. R. track to Diamond. No action was taken on this matter.

Chairman Wise, of the Fire and Police committee reported receiving new nozzles for fire companies. They will be tested this week.

Chairman Derstine of the Street committee stated that lumber had been secured for repairing bridge over Buffalo Run at Glass works. Streets and sewers have been cleaned etc.

Chairman Fenlon of the Water Improvement committee stated that the committee had held a meeting on Saturday night and had decided to accept the offer of J. H. Lingle to put in a pump and repair water wheel at the old water works. The work to be completed by the middle of May. This will be used to help out the Phoenix station if necessary during dry season. The cost is to be $1.395.

Chairman Kirk of the Finance committee stated that he had been negotiating with Solicitor Fortney in regard to salary but had not been able so far to arrive at an agreement.

Mr. Derstine submitted the opinion of Solicitor Fortney in regard to the claim of Mrs. Origan Atwood for damages for loss of horse and calf whose death was said to be caused by falling on icy alley. His opinion was read by Clerk Kelly and the substance of it was that council was not liable for same as Mrs. Atwood was guilty of contributary negligence. It was referred back to the Solicitor and Street Committee for further consideration.

Mr. Hammond Sechler through Mr. Jenkins asked council for a crossing across High street near Adams Express Co., office. Referred to Street committee to investigate and report.

Mr. Fenlon offered a resolution, which was duly seconded, that council accept Mr. Lingle's offer to put in pump and repair wheel at old water works. Dr. Kirk offered several objections to this proposition. He stated that if the new pump at the Phoenix station is the success they claim for it, there was no necessity for going to this expense. Even if the new pump should not do the work for a few weeks during the summer, the expense of running the steam pump would not be over $75 each summer. This elicited quite a heated argument between Dr. Kirk and Mr. Fenlon, the champion of the Lingle proposition. President Jenkins finally put the question and Dr. Kirk called for the ayes and nays. The vote stood : Ayes—Derstine, Keller, Wise, Seibert, Fenlon Jenkins; Nays—Kirk and Keichline. The motion therefore carried.

The question of Solicitor Fortney's salary was held over for further consideration.

V. J. Bauer was appointed, on the recommendation of the Water committee to make the water assessments.

Mrs. Shivery, who lives on North Allegheny street had requested that water be extended to her property on that street. There are six properties to be supplied with water. It was referred back to Water committee.

The bond of Overseer of the Poor John D. Love in the sum of $3,000 was offered and approved.

The following bills were approved and orders drawn :

J. H. Lingle, repairs and supplies	43 88
Water Works Pay Roll	137 80
Police Pay Roll	53 00
Street Pay Roll	32 88
Total	$267 56

THE SMALL POX SITUATION.

A Very Timely Communication from a Reader of the Republican.

TO THE EDITOR OF THE REPUBLICAN :

There were two items in Monday evening's issue of the The DAILY NEWS, that impressed me on account of their wide difference of treatment. The first was,—"Young Shutt the small pox victim who lives on the Riebel farm, was in Bellefonte Saturday evening." The other related to the small pox at Lewisburg, in which it was stated that eight families are afflicted and that "sentinels have been posted and are guarding these houses with great precaution." In the one case there seems to be criminal carelessness, in the other wise precaution. Is no one in this community clothed with authority to compel the infected persons to remain in their homes? The spread of the disease thus far seems to be due entirely to carelessness. The spirit of "don't care" seems to be abroad, "My neighbors are no better than I am" will ere long infect our entire community. Let the strong hands of the law lay hold on these violators of common decency and their reckless mingling with other people will be stopped. Unless something radical is done quickly, many new cases will be reported and even though the warm weather should check the epidemic, the germs of the disease will linger and next winter a worse epidemic will be upon us, the end of which no man can see.

CITIZEN.

DEATH OF DANIEL HESS.

An Old and Prominent Citizen is Dead at Linden Hall.

We regret that we are compelled to chronicle the death of the venerable Daniel Hess, one of Penns Valley's oldest and most prominent citizens, which sad event occurred at his home in Linden Hall Sunday morning at 7:30 o'clock.

Death was due to the infirmities of old age. He was born at Aaronsburg, CentreCo, and would have been 86 years old next September. He was one of Penn's Valleys leading business men, a merchant and farmer, but for several years past has been living a retired life.

He was a member of the Lutheran church, a kind hearted gentleman and his death causes universal regret Surviving are his wife who was formerly Miss Christene Wielands and one daughter, Mrs. T. C. Heims, of Osceola.

The funeral took place Tuesday morning at 9:30 o'clock from the Lutheran church at Boalsburg. Rev. Stonecypher officiating. Interment in the Boalsburg cemetery.

Husband Turns Up After Many Years.

For about sixteen years Charlotte J. Smith, of Norristown, was not aware that she was the wife of D. Nelson Long. The first her friends knew of the marriage was contained Wednesday in this notice in a local paper,

Married—On February 14, 1888, D. Nelson Long and Charlotte J. Smith, by Rev. George D. Cummings, all of Norristown.

When Miss Smith was 16 years old she was a pupil of the Norristown High school and she and D. Nelson Long were sweethearts. According to Long, they were married one afternoon at the DeKalb street station of the Reading railway.

A few days later Long went West to made his fortune. He did not see his wife again until recently, when he came East to claim her. Mrs. Long was somewhat taken by surprise, but Long produced the marriage certificate signed by Rev. Cummings, and that settled it. Mrs. Long still insists, however, that she had not the slightest recollection of the wedding.

A Cure for Small Pox.

The following has been handed us for publication. It is very simple and can do no harm, while it may do much good.

"A correspondent of the Liverpool Mercury writes: I am willing to risk my reputation as a public man if the worst case of small pox cannot be effectually cured in three days, simply by cream of tartar. This is a sure and never failing remedy. One ounce of cream of tartar (pure) dissolved in a pint of boiling water, to be drank, when cold at short intervals. It can be taken at any time, and is a preventive as well as a curative. It never leaves a mark; never causes blindness, and always prevents tedious lingering. It has cured thousands of cases.

IN THE FAR EAST.

News From the Seat of War is Rather Scarce at Present.

NEW CHWANG, March 18.—The Patriarchial General Linevitch, who was accompanied by Gen. Kondratonovitch after a survey Thursday of New Chwang and its defences, which had been prepared for his inspection, returned to his command at Liao-Yang. He also visited Kai Chou and points affecting the protection of the general coast and the holding of the weak zone along the main line of railway opposite New Chwang. Although disclaiming any apprehension of the Japanese landing here, the authorities are satisfied to have foreigners understand that the Russians are prepared for any local emergency and the arrival of an additional battery of artillery and also 150 scouts today is significant of coming events.

It is apparent that both civil and military strategists and the diplomats at Mukden apprehend a collision with the Chinese. probably fearing that the increasing number of their small bands of scouts operating betwren the Liao river and the great wall are the surest instruments for their entanglement in a conflict, particularly as this zone is in the nature of a no-man's-land on account of having been abandoned by the powers and also because the Chinese jurisdiction is incompetent. Russians able to judge profess to regard General Ma's attitude as dangerous to the peace of Russia and China.

WASHINGTON, March 18.—A cablegram received at the Japanese legation Friday from the Japanese consul at Norwegian vessel which has arrived there from Port Arthur reports that the Russian fleet left Port Arthur on the morning of March 12, but returned the same evening.

CHEFOO, March 17.—While entering Port Arthur yesterday, the 16th instant the Russian torpedo boat destroyer Skorri struck upon an unplaced mine and was blown up. Four of the crew were saved. Viceroy Alexieff wires a report confirming our account of the damage done to Port Arthur during the bombardment of the 10th. He says the story of a fire there is "a base fabrication.

THE CINCINNATI AT CHEFOO

Chefoo, March 18.—The United States cruiser Cincinnati, just arrived from Chemulpo, reports everything quiet, no war news from the front. At the requst of Minister Allen the cruiser brought two former Korean officers, who had left Korea in consequence of their friendship for Russia.

Will "Tidy You Up."

A wife who loves her husband will not object to cutting his hair every week or two instead of every two or three months. Any man can learn to shave himself. A box of blacking, costing 10 cents, will last months. A chunk of soap, some hot water and a rag will take the grease and dirt out of an old suit of clothes. Almost any man can go to bed an hour sooner once in ten days and have his wife "crease his pants." A brush and a little elbow-grease will take the dust out of one's clothes. Of course it costs 10 or 15 cents a week extra to have nice, clean collars and cuffs every morning. And there you are. Of course if your wife doesn't love you she will kick on cutting your hair and "creasing your pants," but then if she doesn't love you it is your fault. She will "tidy you up" every morning if you are any account and you treat her right.

Lots of Room Yet.

At this time Europe, which is the centre of the worlk's civilization, has an erea of 3,555,000 square miles and a population of 380,000,000, or nearly 107 per square mile. The United States, on the other hand, with an erea of 3,025,600 square miles, nearly equal that of Europe, has only 80,000,000 inhabitants. with a percentage of inhabitants per square mile as large as Europe's it would have a population of 320,000,000. This country, therefore, has reasonable capacity of 240,000,000 more inhabitants.

Since 1820 the total number of immigrants who have come to the shores of the United States is 21,758 000. Large as that number may seem, it is insignificant, indeed, as compared with the capacity of this country for more population. Last year 857,000 immigrants arrived the largest number on record, and yet if that number should hereafter land every year, it would take 279 years to make up the 249,000,000 required to make the popolation of the United States per square mile equal that of Europe, this estimate, of course, allowing neither for death or births.

Hill—Miller.

Wednesday evening at 9 o'clock a very pretty wedding was celebrated at the home of Mrs. Joseph Miller in the Allison block on North Allegheny street, the contracting parties being her daughter, Miss Margaret A. Miller and Mr. Louis A. Hill. The ceremony was performed by Rev. John A. Wood Jr., pastor of the Methodist church in the presence of quite a number of invited guests. The groom was attended by Mr. Luther Smith as best man while the bridesmaid was Miss Effie Derr.

After the ceremony and congratulations a delightful wedding supper was served and later the Coleville band of which the groom is a member, and the calithumpians both tendered serenades.

This paper tenders congratulations to Mr. and Mrs. Hill and wishes them much happiness.

Ground Hog All Right.

The tradition of the ground hog and his shadow was certainly made good this winter. From Candlemas day, (February 2,) when the sun shone just long enough for the "pesky" little hog to see his shadow up to last Monday when his six weeks extra nap ended, it has been wintry enough to satisfy any old resident who has been bewailing and bemoaning the passing away of the old-fashioned winter. The ground hog as a weather prophet is all right. This year he hit it exactly.

THE NAME WITCH HAZEL.

The name Witch Hazel is much abused. E. C. DeWitt & Co. Chicago, are the inventors of the original and only genuine Witch Hazel Salve. A NEW PENSION RULING MADE.

Is of Interest to Claimants Over Sixty Years Old.

A COMMISSIONERS VIEW

General Act of June 27, 1890, Which Fixed Thirty-nine Years after Service as the Time Limit is Now Effective.

SAME BASIS AS MEXICAN WAR

WASHINGTON, March 17.—Commissioner of Pensions Ware, with the approval of Secretary Hitchcock Wednesday promulgated the most important pension ruling that has been issued in a long time. It directs that beginning April 13 next, if there is no contrary evidence and all other legal requirements have been met, claimants for pension under the general act of June 27, 1890, who are over 62 years old, shall be considered as disabled one-half in ability to perform manual labor and shall be entitled to $6 a month; over 65 years, to $8; over 68 years, to $10 and over 70 years, to $12, the usual allowances at higher rates continuing for disabilities other than age.

The order itself is preceded by a preamble which after citing the law says the pension bureau has established with reasonable certainly the average nature and extent of the infirmity of old age; that thirty-nine years after the Mexican war Congress, in 1887, placed on the pension roll all Mexican war soldiers who were over 62 years old.

Commissioner Ware, just before leaving for a trip south for his health, spoke as follows regarding the order, which he said would save both the old soldiers and the government a great deal of money and time:

"It would seem that if thirty-nine years after the expiration of service a Mexican war soldier was entitled to a pension at 62 years, and no other requisite for drawing a pension should exist except age, that to soldiers of the Civil war who fought vastly more and longer at least as good a rule ought to apply.

"The Mexican war limit of 62 years was propably brought about by the well known army limit of 62 years at which officers are retired.

"There seems to be a general concensus of opinion that at 62 years the disabilities of old age have set in.

"The order could not have been issued earlier, because it is only now that the thirty-nine years fixed by the Congressional limit has been reached.

"There is an advantage and saving to the government in the use of the order, because every old soldier who has reached the age of 62 years is able to prove almost without possibility of doubt that he is one-half disabled from earning his support by manual labor, This being so, it seems unwise to put a soldier to the expense of time and transportation to go to a place where a medical board can examine him to find that fact out, and on the other hand, it seems unnecessary for the goverment to keep boards established and then pay $6 for examination of a soldier when the result of the examination can be so accurately fore-told.

"I am of the opinion that this order will save the government a good deal of money. Of the two hundred thousand examination in the last year, if one-fourth of them were saved. It would make $300,000 and perhaps an equal amount in time and transportation to the old soldier who would have to go and be examined.

"I am not able to say what expense the bill would entail in the shape of additional payments. The expense to which it will augment the necessity for further appropriation cannot be told. There is a great unknown army that has never applied for pensions. It is not known whether they would or whether they intend to. It will without doubt increase the payments to some extent, but no one is able to fix the amount. The bureau has not considered that as the proper element of consideration. What the bureau has considered has been whether or not it was right and just and a proper thing to do, leaving results to take care of themselves."

Red Hair and Baldness.

Red headed people are less subject to baldness than others. A doctor explains the matter thus: The hair of red hair being almost as thick as five fair or three brown hairs. With 30,000 red hairs the scalp is well thatched, whereas with the same number of fair hairs one is comparatively bald. It takes nearly 160,000 fair and 105,000 brown hairs to cover adequately an ordinary head the red-headed one is relatively thick.

A FINE MUSICAL ENTERTAINMENT.

Given by the Pupils of the Parochial School.

St. Patrick's Day was brought to a most successful and satisfactory ending by a concert given by the young ladies and gentlemen of St. John's Catholic school in Garmans Opera House. By the way each and every one performed his and her part it must have taken a long time and a great deal of hard work to get them into training all of which reflects credit on the careful attention given them by the Sisters.

The large Play House was fairly filled with an audences composed of the leading citizens of the town who by their actions appreciated the entertainment by their continuous applause. The stage was beautifully trimmed with palms and other choice house plants interspersed with "Old Glory."

The curtain rolled up promptly at eight o'clock, and as it did so, a sight presented itself, never before equalled in the Opera House. Fully two hundred little boys and girls began singing "Sacred Heart," hymn. The address of welcome was made by Miss Anna Graham, who is a little tot not more than six years old, but every word she uttered could be clearly heard in any part of the house. A drill and march by twenty young ladies all dressed in white carrying bouquets of flowers and singing "Beautiful Flowers of the Meadow," was an exceptionally fine production and they all deserve great credit for the manner in which they performed their parts, "I'd a Letter From Papa today," was sung by a class of twenty four little girls dressed in white with blue ribbons in their hair. This was one of the prettiest parts during the evenings entertainment and when finished rounds of applause rung through out the house but as the programme was long it could not be repeated.

"Oh Bless Our Native Land," a patriotic song was sung by a chorus of young ladies during which "Old Glory" was kept waving back and forwards across the stage.

The class recitation entitled "The Last Charge," was fine. In this about fifteen young ladies took part, during which Miss Agnes Garrity sang very beautifully "Nearer My Go to The," Miss Garrity has a very pretty voice for a young lady and with a little training she will be one of the best singers in Bellefonte.

An operetta in three acts entitled "A Merry Company" in which "Little Tommy Tompkins," in a juvenile chorus was sung "Rock Me To Sleep" a pantomime formed a part and was well received by the audience. "Lead Kindly Light," sung by eighteen young ladies was certainly very pretty and they received hearty applause for their excellent singing.

Taking it all in all the musical from the beginning to the end was a complete success, and every student deserves great credit for their part on the programme.

Physicians Must Co-operate.

The physicians of Philadelphia were Tuesday fined ten dollars each in the police court for neglect of duty, One of them did not report to the Board of Health a case of scarlet fever, and the sufferer went to the Municipal Hospital in a street car. The other failed to give information regarding a case of diphtheria.

Of course, these physicians did not intend to do anything wrong. They were simply thoughtless. But it is of just this sort of thoughtlessness that the board has been complaining. Contagious diseases cannot be prevented from spreading unless proper precaution are taken, and the health officials very properly insist that immediate information shall be given of the location of any contagion. The law is with them. Physicians must report, and neglect to do so not only renders them liable to a fine, but makes all the harder the work of health authorities.

Tuesday's convictions were not the first. There have been several other instances where physicians have been neglectful, and where small-pox patients have been allowed to walk the streets or find their way to the hospital. Such things are serious. No matter whether a doctor thinks there is danger or not, he will be safe in obeying the letter of the law exactly. A few more convictions will doubtless convey a lesson that has seemed to be needed. In stamping out contagion there must be a hearty co-operation with the officials on the part of the physicians. —

ED.—The above very appropriate editorial was taken from Wednesday morning's Philadelphia Inquirer, with Smallpox lurking in our midst and victims circulating in our business places every precaution should be taken to stamp out this dread disease.

Fell From Train and Seriously Injured.

John Gallagher, of Howard, was quite seriously injured Thursday night about ten o'clock while attempting to board a train at Milesburg. It was a freight train and going at a rapid rate when Gallagher attempted to jump it. He missed his footing and was thrown to the ground, dislocating his hip and inflicting serious scalp wounds. He was taken to the Bellefonte Hospital where he is receiving every attention possible. His wounds while severe are not necessarily fatal.

He is 23 years of age and a son of Mrs McCummins of this place.

He Should Have Been a Mormon.

James H. Bowser, a former resident of Pittsburg, who has been working in Williamsport since last August, was arrested Thursday afternoon on the charge of bigamy. Alderman Batzle committed him to jail under $1,000 bail for a hearing next Tuesday. Last August he was married to Miss Mary Souter, of Williamsport, and a year previously took the nuptial vows with Miss Lillian Malcus, at Pittsburg.

Served Him Right.

A man was caught out in a snow storm and in order to protect himself, crawled into a hollow log. While the storm raged he began to think of what a good man he had been, and of all the good things he had done, and he became so full of enthusiasm that when he went to extricate himself he found that he was wedged in so tight that he could not move. Try as he might, he seemed doomed to die in that old log.

As he lay there thinking of his past life, a sudden thought passed through his mind that he had not paid the local editor for six years, and he felt so confounded small that he crawled right out of the log.

Special Notice in World's Fair Contest.

At the general request of the readers of the REPUBLICAN and teachers and their friends who are interested in our World's Fair Contest. We have decided that all coupons cut from the Republican shall count (6) votes instead of (1) as heretofore. The coupons in the Daily News remain the same, good for (1) vote. This gives the country teacher and his or her friends an equal chance with the town.

Get your friends interested and if your neighbors don't take the paper get them to do so and every dollar paid will count 50 votes in the contest for whoever you may desire.

Now is the time for action.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

Washington, D. C., March, 22, 1904.

It is significant that the Supreme Court, in its decision in what is called the "merger case," divided on party lines, but this fact is in no wise a disadvantage to the Republicans, who have often been accused of hesitating to enforce the Interstate Commerce law. Rigid as it is, the law has been upheld by the Republicans on the bench, and everyone who knows President Roosevelt is convinced that he has the courage to enforce it, and will do so when occasion requires. The satisfaction with which the decision has been received on the part of the press, the people and the financiers, is encouraging, and ensures a peaceful outlook for the future. Naturally, under stress of the political situation, the President will not disturb present conditions, and upset the country by instituting criminal proceedings against every corporation which may have technically violated the law. He proposes to have a dignified, conservative, quite campaign which will find the country as prosperous next November as it is now. It is essential to the welfare of the country, and for the carrying out of the great enterprises now in hand, that the commercial prosperity of the country should continue. At all events the President will do all he can to that end, and is striving with wisdom and industry to satisfy all reasonable demands of the people.

It was after repeated conferences with the President that the Secretary of the Interior and the Commissioner of Pensions arrived at a solution of the service-pension problem which has given considerable anexiety to Congress. A liberal interpretation of the present pension laws was determined upon and an old age pension agreed to. This will take less than ten millions of dollars out to the Treasury annually, and will satisfy the promoters of the new scheme. Claimants over 62 years of age will be rated as disabled one-half. As this result pleases all concerned there will be no new pension legislation at this session of Congress. Senator Dietrich of Nebraska will be exonerated of all the charges brought against him and the President will remove Atty. Gen. Summers of that state. The President has ordered a further inquiry into the New York Post Office. The number of Republican delegates now instructed for president Roosevelt amounts to 138, uninstructed, 28.

Post Office affairs continue to occupy a good share of the attention of Congress, and nearly every day their is an outburst of indignation in the House. The McCall committee of investigation is busy at work trying to get exact information. The much abused Fourth Assistant Postmaster General, Bristow, has appeared before the committee, and astonished it by saying there is a library full of correspondence from Congressmen preserved in the Department. This can be inspected confidentially. The famous report was prepared by inspectors at the instance of the Postmaster General. In the House the Post Office appropriation bill is being closely scrutinized, and it has been decided to abolish in country post offices such titles as "cashiers," "night superintendent," "superintendent of carriers," and "superintendent of inquiry;" and put all employes upon an equal footing and with equal salaries. Saturday the members of the House took an excursion to Jamestown, Va., to view the site of the exhibition, which is to be held in 1907. This is another "epoch" exhibition, and will probably require a small appropriation. Members of the House wish to know how the $1,070,000 for the old Panama canal commission was expended.

Seven or eight hundred miles of railroads to cost some forty millions of dollars, are proposed as a benefit to the Philippine islands, in the way of developing trade. New York capitalists hesitate to invest in the project unless the U. S. Government will insure a certain income on the investiment. Secy. Taft is opposed to the government building the roads. Congressman Cooper has introduced a bill providing for a four per cent, guarantee for these railways upon an investment of forty millions of dollars. This bureau would probably fall upon the Philippine treasury.

The Washington water works have been giving the capital city muddy water for its inhabitants to drink, until it is as brown as Missi-sippi river water. The scientists have come to the reecue, and Dr. Wiley, promoter of pure-food products, announces that no other water is so sweet and healthy as the muddy Potomac, because the mud kills all the gems that produce typhoid fever and other diseases. Dr. Woodward the health officer of the district, and a lecturer in one of the law colleges warns people to beware of pure water, especially springs and brooks. This water contains deadly disease germs, and they are much more active and insinuating because they do not exist in such great numbers. Running water, says Dr. Woodard, is especially to be avoided. It is alive with death. All this is exceedingly confusing to the public. What next?

Hurrah for Company B.

The members of Company B., are congratulating themselves all around as belonging to this famous organization, and they are all the more happier from what appeared in Sunday's addition of the Philadelphia Inquirer. Read and you will know the reason of this rejoicing:

'The committee having in charge the building of the memorial to Brigadier General Alexander Leroy Hawkins, the famous Colonel of the "Fighting Tenth" Infantry, has decided that the unveiling of the monument will be held in Schenley Park, Pittsburg, on June 15. The Pittsburg regiments have started to prepare to entertain the military organizations which will take part in the big parade in connection with the ceremonies. The entire Second Brigade will be in Pittsburg. Several regiments from the other two brigades are also expected to be present and take part. It is said to be a certainty that the First and Third Regiments of Philadelphia will attend the unveiling of the monument."

Manners for Boys.

Keep step with any you walk with.

Hat lifted in saying "goodbye," or "How do you do?"

Hat lifted when offering a seat in a car, or acknowledging a favor.

Always precede a lady up stairs, and ask whether you may precede her in passing through a crowd or public place.

Let ladies pass through a door first, standing aside for them.

Let a lady pass first always, unless she asks you to preceed her.

Look people straight in the face when speaking or being spoken to.

In the parlor, stand till every lady in the room is seated, also older people.

Rise if a lady comes in after you are seated, and stand still till she takes a seat.

Hat off the moment you enter a street door and when you step into a private hall or office.

Never play with knife, fork or spoon.

Cut this out boys and stick it in your hat ready for reference.

Mrs. McKinney Laid to Rest.

Peacefully the body of the late Mrs. McKinney was consigned to the tomb Friday morning after services being held in the St. John's Catholic church on Bishop street. The body rested in a beautiful black cloth covered casket upon which was a sheaf of wheat. The casket bearers were the following gentlemen: Messrs Daniel Heckman, Clayton Heckman, Michael Hayes, John Kelley, Saul Barlett and George Robb. Interment was made in the family plot in the Catholic cemetery.

Don't Become Discouraged.

When you attempt to "follow the footsteps" of some great man, don't become discouraged if you find his strides too long for you to step in his tracks. It is enough if you follow the path he made. It is not possible neither is it desirable, for you to make each step just as he made his. Travel your own gait, but keep in the path, if you wish to reach the same destination.

KILLED AT OLEAN, N. Y.

William Struble Called Away In the Midst of Life.

"In the midst of life
We are in death,"

And so is fulfilled the word of God on this sad occasion.

On Saturday morning Mrs. Fannie Struble Shultz received a telegram saying her son William had been killed the shocking and sorrowful news rapidly spread throughout the town, as the young man was well known and had hosts of friends in Bellefonte, for nine years he held the position of fireman down at the quarries at the Armor farm, and the American Lime & Stone Co., realized in him a faithful and good workman.

Three months ago he gave up this position with the aboved mentioned company and accepted a position as brakeman on the Emporium local running between Olean and Emporium, a branch of the Buffalo, Rochester and Pittsburg railroad. He was getting along splendidly with his work when this distressing accident occurred which resulted in his death.

He was a kind christian young man, a member of the Methodist church at Weaver, on the Pleasant Gap circuit, his loving wife, children, mother, brother and sisters have the glorious hope and faith of meeting him up yonder where there is no sorrow and tears and where there will be joy and happiness for ever and ever.

William C. Struble was a son of Jared and Fannie Struble, and he was born at Pleasant Gap October 23rd, 1875, and was 28 years, 5 months and 26 days old.

He was married to Miss Bessie Garbrick, of near Jacksonville, Centre Co., about 6 years ago. He was a member of the B. R. and P. railroad relief association, also a member of the Knights of the Golden Eagles, of Bellefonte. Surviving to mourn his death are his wife and the following children: Adaline, Paul and Clarence, of Olean, N. Y., his mother and the following sisters and brother, Mrs. Wm. B. Lyons, Miss Mona and Edward, of Bellefonte.

The funeral took place on Tuesday afternoon at 2 o'clock from his late home at Olean, New York. Those in attendance from Bellefonte were Mr. and Mrs. Edward Struble, Leland, Ralph, Willis, Vera, Miss Mona, and William Lyons.

Mrs. Eliza McCloskey.

The death of a very estimable lady occurred Sunday afternoon when Mrs. Eliza McCloskey calmly entered eternal sleep. Mrs. McCloskey was taken with a nervous chill Tuesday of last week, which was the beginning of her brief sickness. Later complications, not clearly defined, arose, and Sunday afternoon, as stated above, she fell asleep—from this rest she never awoke.

The decease is the widow of Henry McCloskey, whose death occurred about four years ago. She is survived by a twin sister, Mrs. Caroline Todd, of Lakeview, Iowa. Davis Evans, who died two years, ago, at Potters Mills, was a brother, they being children of George and Nancy Evans.

The deceased is also survived by three daughters, all of Potters Mills—Ellen, wife of John F. Miller; Laura E., wife of W. W. McCormick, and Caroline at home.

Her age was seventy-nine years, ten months and twenty days. Death took place at the home of her daughter, Mrs. McCormick, where she had gone to aid in caring for her only grandson.

Interment took place Wednesday forenoon, at Sprucetown, Rev. George W. McIlnay, of the Methodist Episcopal church, officiating.

A Death at Altoona.

At 3:45 o'clock Thursday afternoon Mrs. Lavenia P. Schreffler, wife of Cyrus A. Schreffler, died at her home in Altoona of a complication of diseases, after an illness of several months. The deceased was born in Lancaster county and was aged 30 years, 7 months and 27 days. She had been a resident of Altoona for about seven years, and was a member of the Fifth avenue Methodist Episcopal church. Surviving her are her husband, her parents, Mr. and Mrs. Israel Neise, of Lancaster, and one sister, Miss Fannie, of Lancaster.

The funeral services were held at the family residence Sunday afternoon at 4 o'clock. On Monday morning the body was taken to Pine Hall for interment.

Family Stricken With Typhoid Fever.

Five members of the family of W. N. Auman, are sick with typhoid fever at their homes in Millheim. Harry Auman, who had been working at Pittsburg; came home several weeks ago and a few days after his arrival was taken sick with the fever and since that Mrs. Auman and three more of her sons have been stricken.

That the fever was imported by Harry Auman and was not caused by impure water or other sanitary conditions is the opinion of Dr. G. S. Frank, who is attending them.

The sick have been waited on entirely by Mr. Auman so far, but in this case experienced nurses are necessary and on Tuesday evening arrangements were made to secure them.—Millheim Journal

STEAMSHIP HAD TROUBLE.

Tho American Liner New York Had Two Mishaps.

Southampton, March 21.—The American line steamship New York, Captain Young, from New York, March 12, for Plymouth, Cherbourg and Southampton, met with two mishaps Sunday, grounding off Cape La Hague, France, in the early morning and later coming into collision in the English channel with the Peninsular and Oriental steamship Assaye, under contract to the British government and used as a troop ship, bound for Bombay, with 500 troops on board.

The New York grounded while approaching Cherbourg at 2.30 o'clock Sunday morning during a fog. The sea was smooth, however, and the tide was on the flood and within an hour and a half the vessel was floated without assistance. Her bottom was damaged and there was water in the holds but she was able to proceed.

During the voyage up the channel a dense fog descended. When off Hurst Castle, England, the Assaye suddenly appeared and it was found impossible to avoid a collision. The New York's bow crashed into the Assaye's starboard bow, leaving a great gap in that vessel. The New York's bowsprit and bowhead were carried away, and the latter was smashed into fragments.

There was great excitement but no panic on either vessel. The boats of the Assaye were lowered and the troops were mustered, but the bulk-head of the troop ship saved her. Both vessels were able to enter Southampton and the New York was docked at 4.30 o'clock for temporary repairs. Nobody was injured. It will be impossible to estimate the damage to the New York until she has been put into dry dock.

It is believe that both vessels have been somewhat seriously injured. Another troop ship will replace the Assaye.

Library Opens.

The George Jack Boal library, at Boalsburg, was opened Saturday night. The library hall is very incomplete, yet the quarters are altogether comfortable and adequate for the present. The chief promoters of the Boalsburg library scheme are Mr. and Mrs. Theodore D. Boal, and it bears the name of the former's father—George Jack Boal, who during life was a prominent figure in Harris township.

It is the intention of Mr. Boal to thoroughly equip the old Methodist church, recently purchased by him for a public hall, library and reading room. The building will be connected with the public school building, and will be supplied with a modern heating plant. When finished the library, equipments and building will presented to the Harris township school board.

—Itching of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure—Doan's Ointment. At any drug store, 50 cents.

—Edward Conrade, a Newry young man, had a thrilling experience on last Thursday and narrowly escaped death by drowning. On the morning of that day he went to fish in the river, which flows through the site of the old canal reservoir. After his arrival a heavy rain came and before he was aware of his dangerous situation he was completely surrounded by water which continued to rise until he was standing knee deep in water and was threatened with being carried away by the raging torrent. He screamed for help, and his frantic cries finally attracted the attention of Lincoln McIntire and the Henry brothers, farmers of the vicinity. They hastily made a wagon-bed into a boat and succeeded in rescuing the man from his predicament. He was almost perished, from cold and exhaustion, but was taken into the home of Mr. McIntire and cared for until he was able to go home.

Col. Austin Curtin Remembered on His Birthday.

New Orleans, La., March 21.—The Pennsylvania Commissioners have finished their labor at the Vicksburg Military Park and have selected a site for the Pennsylvania monument at some point within the park.

Colonel Austin Curtin, of the commission, was surprised with the presentation of a gold-headed cane Saturday on the occasion of his sixty-ninth birthday.

Camp 32 United Confederate Veterans, called on the Pennsylvanians Saturday with pleasant greetings.

Medal Recovered.

A gold medal awarded to the Rev. E. F. Pitcher, deceased, 1847 by Dickinson College, Carlisle, as a token of merit for oratory, and stolen by burglars sixteen years ago from Mr. Pitcher's widow in Lebanon, Pa., has been recovered. In razing an old landmark near that city a laborer found a box containing, among other things, the Pitcher medal. Without realizing its intrinsic value, he sold it to a local jeweler for old gold. His attention being attracted to the inscription on the medal, the jeweler learned its history and priceless value as an heirloom. The medal has been claimed by Dr. George Gleim, of Lansdowne who is a brother of the late Mrs. Pitcher.

Commerce of the Philippines.

To the Editor of the Republican:

The commerce—imports and exports—of the Philippines for the ten months ending October, 1903, amounted to $55,221,561, as against $49,702,699 for the same months of 1902, an increase of $5,716,952: Two-thirds of this increase was in exports and one-third in imports. The latter increase was for rice purchases. The division of the ten months' commerce was: Imports, $29,329,156; exports, $26,101,405 These amounts do not include gold and silver, nor government supplies of any kind,

Import duties collected fell from $7,254,337 in 1902 to $7,321,662. Of the 1903 revenue $450,000 is subject to rebate as export tax on hemp shipped to the United States. We took three-fifths of the $17,146,994 total exports of hemp. Exports of Copra, mainly to the French market, took a big jump, from $1,500,000 to $3,200,000. Sugar was $3,290,120 an increase of $500,000, but the increase was due more to better prices than to greater quantity exported. Tobacco went below its previous year's record.

The United States' share of the total commerce was $13,600,000, against $11,900,000 in 1902; $9,000,000 of the $13,600,000 was for hemp shipped here. Sugar exports to here have almost ceased, waiting for tariff reduction in favor of the Philippines.

We sent to the archipelago somewhat over $3,600,000 worth of goods, made up chiefly of the following: Wheat flour, $642,123; cotton goods, $262,517; bottled beer, $252,366; oils, $249,133 lumber, $129,791; spirits, $83,629, boots and shoes, $70,474; paper pulp and printing paper, $48,606, condensed milk, $44,346, and different kinds of small machinery. Only 10 per cent, of all this export was carried in American ships, and foreign vessels carried all but 13 per cent. of the goods sent us by the Philippines.

The figures used herein are those of the Bureau of Insular Affairs.

Italy or "Bust."

The DuBois Courier says: "A bunch of about eighty Italians came over the mountain Saturday heading for Buffalo where they will go to New York and take a steamer for their own country. They have been working on the new railroad extension between Curwensville and Bower all winter and are now going to Italy with enough money to live comfortably the balance of their lives."

Small Pox at Lewisburg.

Lewisburg is in the folds of the small-pox scorge and from good authority received from a citizen of that city it is spreading rapidly. Eight families are afflicted. One family has nine cases. Sentinels have been posted and are guarding these homes with great precaution. The schools and churches will be closed should the terrible disease continue to spead.

CORRESPONDENCE

WILLIAM'S GROVE.

Ralph, infant son of Ralph and Edna Williams, died last week aged about 6 months.

Sleighing has been suspended for a few days, although our roads are not open yet, in some places they are using the fields.

Wm. English an aged and much respected citizen died at his home in Graham township. Aged 78 years.

A large tract of timber land east of town known as the Grahampton track, was sold to a Williamsport Co., who according to reports will put a saw mill in soon. It will take about two years to manufacture this timber into lumber and get it to market.

The Standard Oil Co., is trying to lease the oil and gas right from land owners in five townships. They have succeeded in securing a great many leases already. Their propositions are very fair. You can hear the gas bubling already around the stores in public places. And now what is needed is for some ingenius fellow to invent a devise to harness and light this constant flow of gas.

A new brick yard in the Spring. Seems to be a sure go.

Their will be a new saw mill in town soon. There is about one hundred thousand feet of hard wood and about 50 thousand feet of white pine on the ground already.

Mrs. Geo. Coble died at her home in Palistine on last Friday and was buried on Sunday. Aged about 50 years. She was a member of M. E. church at that place.

With the prospects of a brick yard, 2 saw mills, an oil plant and plenty of gas this place has no reason to complain about hard times for Teddy is giving us more than we deserve.

UNIONVILLE.

Wm. Tressler of Fillmore was a business visitor here Monday.

Chas. Waring of Philipsburg spent part of last week in this community calling on his old friends.

Mrs. Howard Holtzworth is at the bedside of her sister Mrs. Fannie Brady in Patton who is quite ill with dropsy and heart trouble.

Grant Hoover was a business visitor here Monday.

Mrs. Wm. Moran is on the sick list.

We understand the M. E. Minister Rev. R. H. Wharton does not expect to return to this charge. He has a host of friends here who will be sorry to lose him, as he is one of the ablest ministers that has ever served this charge.

The infant child of E. J. Williams of Hastings was brought here for burial last week.

Miss Carrie Eckenroth is visiting her sister, Mrs. E. J. Williams at Hastings.

We understand Perry Moran expects to try farming this spring.

HOLTS HOLLOW.

Mr. John Roseman was visiting at Curtin.

Mr. Reynolds Shope moved his saw mill on Thursday and Friday of last week near this place to commence sawing lumber.

Mr. Samuel Bowmaster was visiting at Curtins.

Mr. Leyman of Curtin was visiting Mr. George Greene recently.

Mr. James Weaver of Milesburg was visiting his parents of this place.

Mr. William Barnhart of Curtin passed through this place on Friday with a load of hay, the writer cannot tell where Mr. Barnhart took the hay to unless it was to Milesburg or Bellefonte.

Mrs. D. B Allen was visiting in Milesburg recently.

Mr. Uriah Housel and son Malcolm and Mr. Adam Fisher and son John attended the sale on Thursday March 17, below Mt. Eagle. Also Mr. David Allen and Mr. Cameron Krepe.

Mr. John Barger of Curtin passed through here on Friday evening.

SNOW SHOE.

We are just now tugging with might and main at the wheels of the chariot (figuratively speakin") that shall (we hope) carry our favorite teacher to the World's Fair next summer. Can't you grab hold of a spoke, in the shape of a coupon, and help us along? She is from Snow Shoe and you can see her name, which by the way, is her only belittling feature, among the names of the other candidates this week. She is not doing any electioneering herself, in fact she will first know that her name is being used when she sees this paper. Snow Shoe alone cannot muster enough votes; but why do not some of her friends down in the valley—at Spring Mills for instance—let themselves be heard from? Speak with your votes, please. What we want to do is to clamber over that row of figures above. Money saved is money earned, you know, but a coupon saved is a coupon wasted, after ten days.

PENNSYLVANIA FURNACE.

Vote for your favorite teacher.

C. D. Miller is ill at this writing.

J. B. Goheen transacted business in Tyrone Wednesday.

Miss Anna Ward, who had her collarbone broken is able to be around again.

John Gummo, who was ill with an attack of tonsilitis, is again able to be at work.

Wm. Randolph and family will move from Beaver Creek, Minn., to Pine Grove Mills.

Harry Sager has moved from Burnham, and has rented a property on the farm of Henry McCracken.

PLEASANT GAP.

Spring robins and bluebirds are here. The farmers are not very well settled yet.

Mrs. Boudenbush has returned home from an extended visit to Bellefonte.

Dr. Lee of Centre Hall has been vaccinating some of our townspeople.

M. should get vaccinated so as not to be in danger when H. comes to town.

Mr. A. J. Swartz has been on the sick list owing to an attack of heart trouble. We hope he may soon recover.

The physician who diagnosed an uncertain disease as chicken-pox through the window (being too much afraid of it to venture into the house) now is very willing to vaccinate anyone at $2.50 for each persons. Vaccination only prevents smallpox.

PORT MATILDA.

Examination was held in the Twp. High School Room Saturday March 19th, their being sixteen in the class, six from Huston, seven from Martha, one from Halfmoon, one from Rush, one from Taylor. H. C. Woodring, president, and Miss Emma Reese and Walter Williams, examiners. Our High school is certainly progressing.

Mr. Geo. Marko is sick with grip, at this writing.

The Republican primary election will be held in the K. G. E. hall on Saturday, March 26th, from 7 p. m. until 9 p. m. for the election of delegates to the County convention.

Mrs Edith McKevey has purchased a piano from J. M. Bunnel, of Philipsburg.

S. T. Williams, from Philipsburg, is visiting his father in this place.

Miss Bessie Johnsonbaugh is visiting her sister, Mrs. J. A. Williams, a few days.

Mrs. Bell Miles spent Saturday and Sunday in Tyrone with her many friends.

Mr. S. S. Miles, of this place, was at Blandesburg a few days last week looking after his properties.

Ebenezer Williams and family from DuBois are at home with his parents for a few days.

A. B. Wooding and son Jesse, from Tyrone, spent Sunday in this place, with his parents.

Howard Cowher, from Tyrone, was seen in our town between trains on business.

—The remains of Mrs. Mary Ann Lee who died at the home of her daughter, Mrs. Ella Rynder, in Erie, on Tuesday, March 15, aged 87, were taken to Tyrone Thursday morning and now lie in Grand View cemetery, near those of her sister, Mrs. Catharine Eckley, who died in Tyrone in 1902. Two brothers survive her, W. G. Waring, of Tyrone, and Edmond Waring, of Ossoloosa, Iowa. Her one child is the wife of Theodore P. Rynder, of Erie, and they have two sons, Lee and Dean, college students. Her last illness was brief and painless and her mind was clear to the last. She calmly gave directions for her funeral and messages to absent friends. She was born near Hereford, England, in 1819. Her married life was passed in Milesburg, where she also lived long a widow doing many deeds of kindness all around her, faithful to every duty and to every friendship.

Lived with a Broken Back.

R. Agged Book, of Doylestown, Pa., was severely injured last week and sustained a compound, complex fracture of the spinal column. He was hurried to THE HOSPITAL FOR BOOKS where under the skillful treatment and care of the surgeons and nurses he obtained complete re-covery and returned to his home and friends feeling and looking like a new book. We omitted to state that this famous sanitarium is at 605 Arch Street, Philadelphia Pa.

Arbor Day at Mann's School House.

The scholars at Mann's School House in Curtin township are preparing for quite a big time in observing Spring Arbor Day. It falls this year on April 8th. J. A. Fiedler is the teacher of the school and in conjunction with the scholars has prepared an excellent program. Besides the part taken by the pupils there will be addresses by Capt. Hugh S. Taylor, Ex-Senator W. C. Heinle, John A. Daley and others.

The public is cordially invited to attend.

WEDDING BELLS.

Peal Forth Merrily for John B. Miles and Miss Blanche Ebberts.

One of the prettiest weddings that has taken place in the upper Bald Eagle Valley for some time occured Wednesday morning at 7 o'clock when Joon B Miles took unto himself a bride in the person of Miss Blanche M. Ebberts, the bright and charming daughter of Mr. and Mrs. James B. Ebberts of Martha.

The ceremony was performed at the beautiful home of the brides parents at Martha and in the presence of about sixty invited guests. Rev. Dekker said the words which made these two hearts palpitate as one. The bride was attended by Miss Mary Woodring while the groom had for his best man, Mr. Earnest Spotts.

An excellent Wedding breakfast was served to the assembled guests which was highly enjoyable. Many beautiful presents were received by the bride testifying to the high esteem in which she is held.

The groom is a highly respected young man and a son of Ex-County Treasurer John Q. Miles.

Death of Isaac H. Clevenstine.

Isaac H. Clevenstine, one of Hublersburgs best citizens, died very suddenly Tuesday afternoon at 1:30 o'clock while at work in his carpenter shop at that place. Mr. Clevenstine had been enjoying his usual good health and his death was entirely unexpected and a great shock to his family and friends.

The deceased was born in Walker township and was aged 59 years, 1 month and 5 days. He was a carpenter by occupation and died in the harness having the tools of his trade in his hands and at work on a job when death overtook him. He was a consistent member of the Reformed church. He is survived by his wife, whose maiden name was Mary Walkey, a sister of Henry Walkey of this place; also two sons, Harry E., of Bellefonte, and John S., at home. One daughter, Cora, a very charming girl, died about 13 months ago, aged about 18 years.

The funeral will take place Friday morning at 10 o'clock from the Reformed church at Hublersburg. Rev. H. I. Crow will officiate and the interment will be in the cemetery at Hublersburg.

Oak Grove Was Excited.

Oak Grove was somewhat wrought up Thursday night over the report that a dead man was lying in a gully near the site of the proposed new railroad station. A searching party was immediately formed and for several hours a number of Oak Grove people searched for the supposed dead man, but it was so dark that they were unable to satisfy themselves. Friday morning the search was resumed but without result. The man is supposed to have been drunk and was merely taking a nap.

THE BATH AND THE SKIN.

Different Kinds of Baths and Their Effects. The Bath After Exercise and as an Aid to Keeping the Health,

By CHRISTINE TERHUNE HERRICK, *Author of "Cradle and Nursery," "First Aid to the Young Housekeepers," "Housekeeping Made Easy," "What to Eat," "In City Tents,*

(Copyright, 1904, by Christine Herrick.)

So the first plunge must be into warm water. The soaking feels grateful after the tension of the exercise, and the relaxation of the muscles is likely to tempt any one to remain too long in the tub. But the time for letting oneself go is not yet. There must first be a vigorous rubbing either with a flesh brush or with a rough cloth or with a bath mitten of Turkish toweling or some such material. This is perhaps best, since the hand thus covered goes over the whole body with an energy it cannot gain when holding a washcloth.

The use of soap is open for discussion. It is generally taken as a matter of course and yet I have known competent physicians who claimed that it did no good. The skin that has been first stimulated, as by the bicycle, horse back ride or other vigirous exercise, and then coaxed into more work by the application of warm water does not need soap in order to make it clean. The rubbing I have described will suffice for that. The waste matter is removed by the friction without the use of soap. Yet there is no objection to this if a good plain toilet soap is used,—one that is not highly perfumed or too drying in its effect. Every bit of this should be washed from the skin before the cold spray is used to close the pores and brace the system after the relaxation of the warm tub.

The cold spray seems a rather heroic measure, but it is only for a while that it impresses the bather as a trial. In a short time she craves it and feels no shrinking from the tingling of ice cold water, even after a very hot bath. The spraying need not last long,—only a minute. It is a mistake to continue it until one becomes chilled and loses the bracing effect. As a matter of course, there are some bathrooms where a spray cannot be used, because of the arrangements of the faucets or for some other reason. This is a pity, but it need not oblige one to renounce the douche. The pitcher to which I have already referred can be used or one can adopt the simple expedient of a man I knew who used the common or garden variety of watering not as a means of attaining a cold spray.

The stimulation of the skin is pursued *by friction with a rough towel.* The ordinary towel will not serve. Sometimes even the Turkish towel gets soft and in such cases it is well to pass it through a little starch water before drying it. It should never be ironed, of course.

The ideal method is to take half an hour's rest after the bath and if the ride has been a long and hard one or if the course over the links or the contest in the tennis courts has been unusually fatiguing, it is worth while to give half an hour to repose. But the healthy active woman does not usually need it unless she has rather overdone.

"But," I hear a woman say, "It may be all very well to talk about taking time to bathe and to rest for the woman who has been playing golf or tennis, but it is out of the question for the woman who rides a wheel. Her machine has to be cleaned before it is put away!"

Not at all, my dear girl or madam, in the days before the chainless bicycle came into service this might have been the case. With the driving mechanism neatly encased and amply protected from mud and dust and even from rain, there is no more trouble after a return from a ride than there is in hanging up a racket or setting the bag of golf sticks in the corner.

Always following a bath there must be some precautions adopted against cold. Even the cold spray and the hard rub have not done everything and the woman who sits in a draft when she has just dressed after her bath runs a great risk. This is especially the case after exercise, but it is true also when one has taken the bath without preceding it by the ride, the walk or the game. Sometimes one marvels what has become of the common sense that was presumably dealt out to all mortals when they came into this world.

"I have such a mean headache," said a woman to me the other day. "The only way I can account for it is that I forgot how soon after dinner it was last night, and as I was tired I took a hot bath before going to bed early. I have felt rather queer all day."

And she was a sensible woman,—old enough to have known better! Yet from sheer carelessness she did a thing which might have had a fatal result.

The frequency with which such a bath as I have described may be taken is a mooted question. There are some persons to whom it is as regular an everyday function, barring ill health, as is their breakfast or their dinner. I have known those who bathed morning and night as well,—a rather foolish thing to do, according to the doctors. Some persons cannot stand a plunge bath oftener than every other day. It is all a matter of physical condition. To those who have formed the daily bath habit it is a real privation to give it up.

"When can I have a bath, Doctor?" queried a woman who was just emerging from a dangerous illness. "It seems an age since I was in a tub."

"My dear Madam," returned the physician tartly, "I have known patients as sick as you have been who have not had soap and water come near them for six weeks. And you have really been kept very clean!"

The assurance that one is clean does not take the place of the tub and spray to one who has the habit of these. Least of all can one give it up when the hard ride, the fiercely disputed game has brought one into a perspiration that causes the whole being to cry out for a tubbing. The woman who does her wheeling or her playing later in the day must deny herself the morning bath for the sake of the one that will follow exercise.

In the first place, the bath means cleanliness,—when properly taken. For a poor bath is almost as bad as no bath at all. And when cleanliness is achieved a long step is taken towards health and a still longer towards good looks. No one can hope to be really attractive who has a poor complexion and no one can expect a good complexion who does not keep the pores of the skin open and free of matter which does not belong there.

Of course, any woman thinks she knows how to take a bath. Nearly every one labours under this impression until she has had a Turkish bath and learned what is meant by real cleanliness. After that she is of a different opinion. She may not be able to take Turkish baths constantly or even often, but she will come as near them, in the way of making herself clean, as she can possibly manage.

Not every woman can stand the regulation Turkish or Russian baths, with their hot air, their steam rooms, their hard massage and cold spray or plunge afterwards. The home made imitation of such baths even is sometimes too much for them. Unless they are sure of themselves it is not worth while to put good money into a Turkish bath cabinet or even to compass a home made version with a packing box and a little ingenuity. Instead, they may seek substitutes in a simple fashion.

The most elementary Turkish bath is made by wrapping the bather in a sheet and seating her on a cane bottom chair under which is a shallow tin of hot water set over an alcohol lamp. This lamp should be of the sort that has an asbestos burner protected by a wire netting. After the bather is seated, a heavy blanket should be wrapped around her and the chair, and she should sit thus until she is in a drenching perspiration. When this point is reached she should get at once into a tub of warm water, scour herself well with a flesh brush, so as to remove the matter that the perspiration has washed out on the skin, and after this she should try the tonic effect of a cold spray, unless she prefers the cold plunge. If she does not possess a spray she should dash cold water over her body from a pitcher. Then comes a good rub down with a rough towel and a half hour's rest.

Such a bath is advantageous to nearly every one and especially to the woman who has a poor complexion which is the result of imperfect circulation. The chief objection to this bath in the minds of busy women will be the length of time it demands. When a woman has stimulated her skin to action by vigorous and healthful exercise and has thus provoked a flow of perspiration she does not need the preliminary session over hot water. The bath in a tub, however, with the cold spray to follow is an essential after violent exercise.

Let it be supposed, for instance, that a woman has been out on her wheel. If she is an active rider she has undoubtedly achieved the perspiration and with it a degree of exhilaration that the period of retirement in the company of a blanket and an alcohol lamp would never bring about. Someone has called an up to date chainless bicycle a zeal inspiring wheel for women. The girl or woman who has been out for a spin on a machine that is made in such a fashion that she can come home with her skirt in as good a condition as when she started,—as can be done with the right sort of a bicycle,—does not shrink from the amount of time she will have to devote to her bath as she would if she knew a dirty and stained frock was awaiting her attention.

No matter how heated the rider may be she should never make the mistake of using cold water the first thing after a ride. In fact, it is very hard to get clean by the use of cold water alone, even when accompanied by hard rubbing. It is true that the exercise has opened the pores and that a great quantity of effete substance has been sluiced out with the perspiration. But the dash of cold water shuts the pores with a snap and whatever matter is left there is enclosed, to be re-absorbed by the body.

WOOD'S NAME CONFIRMED.

The Vote in the Executive Session of the Senate 45 to 16.

CONTESTED 4 MONTHS

Five Democrats Voted With the Republicans—Only Two Republicans in the Minority.

HANNA'S DEATH ENDED OPPOSITION.

WASHINGTON, March 19.—By the action of the Senate in executive session Friday, General Leonard Wood became a Major General, taking the rank from August 8, 1903, the day President Roosevelt made the promotion. The contest against his confirmation has been a notable one, beginning November 19, 1903, soon after Congress convened in special session, and continuing through the present session until Friday, when, by a vote of 45 to 16 the nomination was confirmed. The late Senator Hanna was recognized as the leader of the forces opposed to General Wood and had it not been for his death before the disposition of the case, it is conceded that the vote would have been much closer. It has not been believed at any time since the contest opened, however, that the fight against confirmation would have been successful.

Some Republican members of the Senate, placing their confidence in the judgment of Senator Hanna would have stood by him in his opposition to the promotion of General Wood, but when death removed the late Senator from the conflict, only two Republicans remained in the minority. They were Senators Scott, a member of the Military Affairs Committee, who opposed the nomination while it was pending in committee, and Senator Kittridge.

Five Democratic Senators voted with the majority in favor of confirmation. They were Senators Cockrell and Pettus, members of the Military Affairs Committee, and Senators Patterson, Clark, of Arkansas, and Dubois, The negative vote on the confirmation was as follows.

Bacon, Berry, Blackburn, Clark, Montana; Culberson, Gibson, Lattimore, McCreary, McLaurin, Mallory, Martin, Money, Newlands, Simmons, all Democrats, and Kittredge and Scott, Republicans.

Dependent upon the confirmation of General Wood were 167 promotions for other army officers. These have been held up since their nominations were made by the President, but now will be confirmed without opposition. They include twenty colonels promoted to be Brigadier Generals on the active list and officers ranking from Colonels down to Second Lieutenants. All these nominations, as well as that of General Wood were sent to the Senate at the beginning of the special session in November, and lapsed when that session closed. They were sent to the Senate immediately at the beginning of the regular session.

A controversy arose as to whether or not they were recess appointments and also as to whether the promoted officers were entitled to the rank and pay to which they were nominated. As all no doubt will be speedily confirmed according to military authority, they will take rank and pay from the time they were first appointed to fill vacancies.

Mrs. Irvin Leichty.

Annie, wife of Irvin Leichty, died at their home at Mackeyville, on Monday, at noon, at the age of 41 years. Though she had not been in good health for several years her condition did not become real serious until about three months ago since which time her suffering had been intense. Surviving are her husband, three sons and one daughter, among the former being John, who is employed at the Lingle foundry in this place.

Rev. Brown, of the Reformed church, of which she was a devoted member, officiated at her funeral at Mackeyville Thursday morning.

One American Was in the Council.

The re-organized borough council of Nanticoke, Luzerne county, is composed of one American, two Englishmen, two Welshmen, two Irishmen and five Poles. The American, despite his loneliness, is on the winning side, for, with the Irishmen, Englishmen and Welshmen, he is in a combination against the five Poles, and the latter had no share in the patronage. As about half of the borough population is Polish, a serious racial antagonism has developed. The Polish leaders are planning to elect a majority of the council.

Mrs. William Earnshaw.

Mrs Margaret Hutchinson Earnshaw, widow of Rev. William Earnshaw, is dead at her home in Dayton, O. Mrs. Earnshaw was born and raised at Warriorsmark, but for years had resided in Dayton, where her husband was chaplain of the Soldier's home. She was a sister of the late A. C. Hutchinson and Mrs. Samuel T. Gray and is survived by several children as well as a number of relatives in Half-moon valley.

DO YOU WANT STRENGTH?
If you want to increase your strength you must add to and not take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nerves, blood and tissues before being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up strength in the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. Letters from Women
Cured by the use of Kodol are received daily. Their troubles nearly all begin with indigestion or other stomach disorder.
If the food you eat fails to give strength to your body, it is because the juices secreted by the stomach and digestive organs are inadequate to transform the nutrient properties of the food into blood. That is indigestion. The system is deprived of the amount of nourishment required to keep up the strength, and the result is that one or more of the delicate organs gradually grows weak, and then weaker, until finally it is diseased. Here a great mistake is made. That of treating the diseased organ. The best doctors in the land make this very mistake. Why should they? It is so easy to see that the trouble is not there.
Kodol Cures
This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, tissue and fiber throughout every organ of the entire body, and by Nature's law of health, full strength and vigor is soon restored to each.
Kodol cures indigestion, dyspepsia and all stomach disorders.
I have taken Kodol for nearly two months after each meal and it is the only remedy that gave relief from the terrible pains I endured. After a time I would take it but once a day, and now, while I keep a bottle handy I seldom need it, as it has cured me. MRS. J. W. COOLBAUGH, Milo Center, N. Y.

FARM·ORCHARD and GARDEN

By J. S. TRIGG

COPYRIGHT, 1904, BY J. S. TRIGG, ROCKFORD, IA.
CORRESPONDENCE SOLICITED.

The past season has been particularly bad for cold storage butter.

Nothing but coin goes in the Philippines, as the ants eat up the paper money.

Go make thy garden as fair as thou canst;
Thou workest never alone.
Perchance he whose plot is next to thine
Will see it and mend his own.
—Robert Collyer.

There is a good deal of happiness in this world connected with wanting something and being actively engaged in the pursuit of it, with good prospect of getting it.

The difficulties which beset the culture of tea in this country are appreciated when we know that the American product has to compete with that produced in Japan by women who receive 12 cents per day.

It is generally conceded that silage is put up at a less cost than dry fodder and possesses a considerably greater feeding value. Then, too, the weather is not a damaging factor in the matter of securing ensilage.

The forehanded man is busy at this season of the year getting his next season's wood pile worked up. It is a piece of forethought, by the way, that the good wife of the house will thank him for every day she burns the dry wood next season.

Should a tree peddler tell you that the Northwestern Greening is a good apple, but won't keep beyond the first of January, show him the door. He will doubtless have a variety very much inferior to offer in its stead. The Northwestern Greening keeps nicely until April or May.

There is no agricultural prosperity in the whole wide world which equals that enjoyed by the western farmer who feeds out the raw material raised on his farm, the seller of beef, pork, butter, mutton, eggs, poultry and the like. The farm of such a man is growing richer and more productive each year.

The writer is enjoying a very good whiff of June time in the shape of a sprig of white lilac in full leaf and bloom. A friend cut a branch from the bush last fall, putting it in a pail of water in a warm corner of the house. The growth of the leaves and blossoms has been entirely due to nourishment received from the water and air.

It by no means follows that because one man can raise a pair of horses which will sell for $500 all other men engaged in raising horses can do the same. Most folks are just common folks, and most horses are just common horses. Only rarely is a man found who rises above the common level, and equally rare is it to find a horse which combines so many equine excellencies as to make him worth three times as much as a common horse.

Iowa as one of the leading corn producing states devotes 9,500,000 acres to corn each year, the average yield being thirty-two bushels per acre. It is believed that ten bushels per acre could be added to this average were accurate and scientific methods of selecting and testing the seed adopted and corresponding care exercised in planting. While this is not a large matter for any one farmer, it mounts into the enormous total of 95,000,000 bushels for the whole state, representing a cash value of about $40,000,000.

The Wealthy apple has been kept this winter under ordinary cellar conditions in northern Iowa and southern Minnesota in excellent condition until Feb. 10, when selected fruit was carefully packed in boxes in oats. We saw these apples, ate them and found them in quality superior to any of four varieties of New York state winter apples which we had in the cellar. There is really no better way for a large portion of the northwest to secure choice winter apples than to provide some way of holding the Wealthy over. No apple does so well under cold storage.

A reader of these notes writes inquiring as to the best method of restoring fertility to a twenty acre field which has been cropped to corn until it has about run out and asks if sowing early to oats and clover and plowing under will accomplish the desired result during one season. We think not. The fertilizing value of the clover plant lies mostly in its root system, which could not secure sufficient development in one season. We would suggest the application of six or eight loads of manure per acre with a manure spreader, if such fertilizer is accessible. If not, sow mammoth clover as early as possible; cut and leave on the ground in early July, allowing the second growth to stand. Cut off a crop of hay the next June and plow the [illegible] under in the fall. We [illegible] this method requires two years, it is about the only way if suitable fertilizers are not to be had.

THE FIRST SAVINGS.

The ability to earn and save up, particularly to save up, the sum of $100 by the time he is twenty years of age very largely determines the question whether the young man shall acquire a competency for his old age or whether he will have to depend upon the charity of his friends, die in a poorhouse and be buried in a pauper's grave. The saving of the first $100 involves all the self denying and economic methods on a small scale which are incident to the accumulation of a fortune. The doing of it will be as hard a financial problem to most young men as they will tackle any time during their lives. The sum of $100 is not a very large amount, it is true; still, the earning and saving of it make it an educational factor of almost incalculable value. The boy who has earned and saved this sum has learned, in the first place, that most important lesson—the real value of a dollar; that it represents denial of appetite, a repression of purely animal tastes and desires which develop endurance, patience, manliness; it knocks the easy come, easy go, idea of money, which so many young men have, all to pieces; it teaches him how to say "No!" and stick to it; then he learns the cohesive power of a dollar, for one dollar will draw other dollars to itself; also of the cumulative power which combined dollars have over individual and scattered ones. By saving $100 thus he will learn to respect money and value it rightly as the important factor it is in his own development as a man. No boy who may read this item, and a great many will, can do a better or more sensible thing for himself than to resolve that he will earn—honestly earn—and save not less than $100 by the time he is twenty, and, our word for it, the experience and discipline he will undergo in the doing of it will be worth more than a thousand dollars to him in after life.

Communities which milk many cows are invariably prosperous communities. It is not that the profits associated with dairying are very large, for they are not, but they are always uniform and reliable. Added to this is the fact that dairy farms always grow richer year by year instead of poorer. The dairy sections of the western states can be easily identified by the greater air of thrift and prosperity and by the better houses and barns which may be found connected with them, affording a marked contrast to the purely grain raising sections.

A friend, the owner of a rather wet and flat farm, writes asking whether it will pay to tile drain it when no permanent outlet can as yet be secured for the water. It will be practically throwing money away to tile drain land under these conditions, for an outlet for the water is absolutely indispensable. As he wishes to cultivate this land, we would suggest that he adopt the plan followed by hundreds of farmers located on the level flats in the vicinity of Chicago, plow the land into ridges twenty to twenty-four feet wide. This makes an uneven field to work, and the crop in the dead furrows will usually be poor enough, but it will vastly improve the chances of all the crop on the ridged portions. This is only recommended, however, where tile drainage is impossible.

CONTENTMENT.

While the energy, enterprise and ambition of the average American have no doubt been the main causes of the wonderful development of our country during the last century, there is nothing we now need so much as a let up. It has come to pass that we all want the earth, and because of it life is one perpetual strain. Contented men and women are hard to find. All are frantically struggling to get in the front of the procession, and a failure to get an office, or to be talked about, or pile up a fortune, or make a mark in the world, or lead some reform movement, is looked upon as a failure in life. Now, suppose you sit down and own up and admit to yourself that honestly you are nothing more than just a very common, everyday sort of a person and that any effort you may make to climb very high is all folly and vanity. This view of the case may not be a very pleasant one at first, but the chances are it will be a very correct one. As soon as you realize this, as you should, you have the safe foundation for contentment. Happiness cannot be realized in this world as men realize on an endowment life insurance policy, getting it all in one lump twenty years hence as a result of a constant, unremitting contribution of premiums during the twenty years. Happiness, after all, consists very largely in not expecting too much and the intelligent and harmonious adjustment of our lives to the sphere in life allotted to us. Of one thing you may be sure—happiness is to be taken in daily rations, as we take our daily food, and the world harbors no greater fool than he who leads a cankering, restless life of inordinate ambition in the hope that by and by—some day—he will let up and enjoy life.

IMPOVERISHED SOILS.

There are plenty of western farms today to be found from which two-thirds of the original fertility has been removed and sold in Chicago in the cereal crops raised year after year. Too many have worked on the theory that these western prairie lands were inexhaustible in their fertility and have come to a time at last when, no matter how good the seed or how thorough the care given the crop, their lands will only produce from twenty to twenty-five bushels of oats and corn and three-fourths of a ton of hay to the acre. It is of no use to change the tenant or owner of these farms unless the system of farming is also changed. These lands can only be restored by the liberal use of clover and by stocking them up. The longer they are put into grain crops the poorer they become. In buying a farm today this question of impaired fertility is one that should be closely investigated by the purchaser.

A LOYAL SON'S TRIBUTE.

Black things on Iowa farms are good things. They are the state's best gifts. With them she is gracious, liberal, responsive. You son of toil, wearing out a miserable existence among the stumps, rocks and gravel hills of the east, battling with Nature in her most unkindly moods, come here, where the rows of corn are half a mile long, two ears on a stalk; where cows have twin calves and hens lay double yolked eggs; where the cyclone goes north of us, the blizzards west of us, the drought south of us and the untimely frosts east of us. Iowa's black soil begets her black horses, black pigs and poultry, and the color, somber though it be, has become the insignia of her unequaled agricultural prosperity.

COLDS CAUSE PNEUMONIA.

One of the most remarkable cases of a colds, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength. Sold by Green's Pharmacy.

Reynoldsville Girl Unique Ride.

Miss Coleman, of Reynoldsville, a graduate of Bucknell in the class of 1902, who has been the guest of Miss Ruth Barr, daughter of Lawyer Frederick Barr, at Lewisburg, had an exciting ride on an engine Saturday in an effort to reach Niagara express at Montandon. She received word of the death of a member of her family and at once started for the station, hoping to catch the train which connects with the Niagara express at Montandon. She arrived at the station, however, too late for the train. Her distress was so evident that Mr. Stoughton, superintendent of this section of the road, asked the trouble and upon learning it offered to take the young lady to Montandon in an engine. The offer was thankfully accepted and the trip was made in safety and in time to catch the other train.

"It is the little rift within the lute which ever widening, makes the music mute." It is just a little rift in the health of a woman often, which gradually takes the spring from her step, the light from her eyes, the rose from her cheek and the music from her voice. Perhaps the bugbear which has frightened the woman from the timely help needed at the beginning has been the dreaded questions, the obnoxious examination, the local treatments, of the home physician. There is no need for these. Nor is there need for continued suffering. Dr. Pierce's Favorite Prescription can be relied on by every woman, suffering from what are called "female troubles," to renew the health and cure the disease. Women are astonished at the results of the use of this medicine. It not only makes weak women "robust and rosy cheeked," but it gives them back the vigor and vitality of youth.

Free. Dr. Pierce's People's Common Sense Medical Adviser, 1008 pages, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Instantly Killed by the Train.

Charles Conrad, Jr., was instantly killed by being thrown under a freight train at Lock Haven on Tuesday afternoon. About two months ago he was married to Miss Ida Weber, daughter of George Weber, formerly of Rebersburg. The unfortunate young man was in the employ of Jacob Brown & Sons, grocers of Lock Haven, and while engaged in delivering goods was struck by the freight. His age was 19 years. Funeral services were held Friday forenoon at his home in Lock Haven.

Sold by all druggists in all parts of the world. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup and take on other kind.

His Mistake.

A Coburn young man was calling on his best girl in Millheim. The lamp was turned low and they had the room to themselves. They were holding hands. He is a bashful young man, but the girl loves him, and is determined to get him. So while they sat in the dim light side by side, hand in hand, she paved the way for a bold proposal by exclaiming "Sleap Year!" The young man blushed red as he replied sheepishly, "Lawd no, I can't, I got to get home an' feed the stock."—Millheim Journal.

A SEVERE COLD FOR THREE MONTHS.

The following letters from A. J. Nusbaum, of Batesville, Ind., tells its own story. "I suffered for three months with a severe cold. A druggist prepared me some medicine and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar, and eight doses cured me." Refuse substitutes. C. M. Parrish.

Religions of Japan and Russia.

There are three religions among the Japanese—Shintoism, Confucianism and Buddhism. Shinto was the religion of primitive Japan, and it has the largest following today. The word Shinto means "the way." It is a combination of nature-worship and ancestor worship. The gods are very numerous, but the most of them are unknown beyond the immediate vicinity of their temples. Shinto has no idols. Worship is directed to the powers of nature, personified as gods, and to the spirits of ancestors, who are supposed to be capable of giving direct the material help. It was the original religion of Japan. Buddhism was introduced from Corea in A. D., 534, and Confucianism had few followers until in the seventeenth century.

The religion of all Russians is the Greek Catholic. It is similar to the Roman Catholic church in dogma, but differs on several important points of doctrine. So far as the masses of the Russian people are concered, it is not one whit better than the Japanese religions: for, like the latter, the Russians hold that performing certain duties, prescibed by the church, insure salvation; and the daily conduct of the Russian masses is really on a lower moral plane than that of the Japanese people.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Babies in Baskets Their Fad.

Mrs. Thomas Rohan, of No. 1023 Hill street, Williamsport was called out of bed at 2 o'clock Saturday morning by the jingle of the electric bell at her home. At the door she was startled by the sound of a crying baby. In the vestibule of the hall was a silk-lined basket, and cuddled up in it was a fat 3-months-old boy. Another basket containing the baby's clothes was at the other side of the hall.

Mrs. Rohan has been married nine years, but is childless. When Saturday morning she showed her treasure to her neighbor, Mrs. Jeannette Groom, who is also childless, the latter requested the newspaper reporters who were sent to investigate the story to "please insert an advertisement in the papers for the same party to leave a baby" at her house.

—The Y. M. C. A. building in Eagleville has been seized by the sheriff of Centre county and advertised to be sold at public outcry the 24th inst., to satisfy a mortgage held by John Bowes for $400. Irvin Wagner holds a second mortgage for $200. This association has accomplished much good in Eagleville and is a matter of regret that a declining interest has rendered it impossible to raise sufficient money to pay off these debts.

—A lawyer gives this advice: Additions to rented premises, when made by the tenant, should never be fastened with nails, but screws. The reason for this lies in the fact that should he wish to move away and take with him the boards and other lumber composing the improvements he had made, he can simply draw out the screws, and take the planks. If he fastens them with nails, however, he can remove nothing and the improvements become the landlord's property.

—In connection with our account of the entertainment given by the pupils of St. John's School on Thursday evening, March 17, we will comment very favorably on the manner in which the boys acquitted themselves in the Operetta entitled "A Merry Company," as also in the play, "Reforming a Truant," which won hearty applause from all present. The music rendered by the Pupils' Orchestra was highly appreciated. Everyone present was highly pleased with the entertainment and it is hoped that these splendidly trained children may favor the public again in the near future.
